To,
The Registrar (Academics), A / C II
Bangalore University,
Bangalore.

Dear Sir,

Sub: To upgrade the Syllabus and Technology advancement at PG
Level.

This is to bring it to your kind notice that the students after completing BCA and are willing to take-up MCA are of the opinion that the subjects in MCA either easier or similar to what they studied in BCA. In this regard there is no technology advancement and updating of syllabus at PG Level. In the view of this it is requested that the university look into the aspect and frame the syllabus by consulting the industry and make the syllabus more advance compared to UG. Also the teaching hour allotted for the PG Management should be increased as it is not sufficient to cover the syllabus in the hours allotted.

We request you to kindly look into this and do the needful.

Thanking you,

Yours Faithfully,

cls

Dear Sir,

Sub: To arrange the syllabus in sequential order.

This is to inform that we received the feedback from the students and faculty that the syllabus is not in the sequential order. In view of this is requested to look into this matter and set right the problem for the next batch of students and oblige.

Thanking you,

Yours Faithfully,

Remedial Action for Students' feedback

The students feel that the sequence of units in the syllabus is not in the order, the same will be informed to the University for taking necessary measures to rearrange the syllabus in the sequential manner in order to have the flow of subjects.

Remedial Action for Teachers' feedback

As per the syllabus prescribed by the university at the PG level especially MCA the number of teaching hours allotted to each unit is less than the actual teaching hours that is to be required. The most of the concepts cannot be clearly delivered in the prescribed hours because of this the students have to spend more number of hours in gathering information from various sources such as library, internet which increases the load on the students, the same will be informed to the University for taking necessary measures to rearrange the syllabus in the sequential manner in order to have the flow of subjects.

Remedial Action for Alumni feedback

The practical component in the subject is lacking. Alumni are of the opinion that more of the practical components should be included as per changing needs of the industry, the same has been informed to the University for taking necessary measures to rearrange the syllabus in the sequential manner in order to have the flow of subjects.

Remedial Action for parent feedback

More of the student development programs are to be included for providing quality teaching and overall development of the students. This was discussed in the board of Governors meeting and it was suggested by the governing council members to organize students' development program such as conferences, add on courses, career counseling and guidance.
