OBJECT ORIENTED ANALYSIS AND DESIGN (OOAD) or (UML)

OBJECTIVES:

The student should be made to:

- Learn the basics of OO analysis and design skills.●
- Learn the UML design diagrams.●
- Learn to map design to code.●
- Be exposed to the various testing techniques.

UNIT I UML DIAGRAMS

6hours

Introduction to OOAD – Unified Process – UML diagrams – Use Case – Class Diagrams– Interaction Diagrams – State Diagrams – Activity Diagrams – Package, component and Deployment Diagrams.

UNIT II : DESIGN PATTERNS

6hours

GRASP: Designing objects with responsibilities – Creator – Information expert – Low Coupling – High Cohesion – Controller – Design Patterns – creational – factory method – structural – Bridge – Adapter – behavioral – Strategy – observer.

UNIT III : CASE STUDY

6hours

Case study – the Next Gen POS system, Inception -Use case Modeling – Relating Use cases – include, extend and generalization – Elaboration – Domain Models – Finding conceptual class Hierarchies – Aggregation and Composition.

UNIT IV: APPLYING DESIGN PATTERNS

6hours

System sequence diagrams – Relationship between sequence diagrams and use cases
Logical architecture and UML package diagram – Logical architecture refinement – UML class diagrams

UNIT V: CODING AND TESTING

6hours

Mapping design to code – Testing: Issues in OO Testing – Class Testing – OO Integration Testing – GUI Testing – OO System Testing.

TEXT BOOK:

Minutes of Meeting

Date: 17.07.2017

Time: 2:00 PM

Agenda: Add-On Course Program for BCA Students

Members Present in the meeting:

1. Dr. Naema Sultana
2. Prof Vijayalakshmi Ramesh
3. Prof Aswath Narayan
4. Prof Priyanka Sharma
5. Prof Neelima Sahu
6. Prof Lavanya Srinivas

The Principal Welcomed the BCA Head and all the faculty members in the meeting.

The Head of the BCA Department suggested conducting the Add-On courses on any of the technologies such as Cloud Computing, Artificial Intelligence, NO SQL etc which are not there in curriculum for the BCA 3rd year students. The Faculty members along with the head and principal discussed about the different technologies mentioned. Finally Principal advised to take Cloud Computing for 3rd year students. The Meeting concluded.

Course: Cloud Computing

Total Teaching hours: 30hrs

Unit-1 Introduction to Cloud:

What is Cloud? , Cloud vs. On-premise, Infrastructure- as- a- Service (IaaS), Platform-as-a-Service (PaaS) , Software-as-a-Service (SaaS) ,Public , Private and Hybrid Clouds , Public Cloud Platforms : Amazon Web Service(AWS) ,Microsoft Azure , Google Cloud Platform, Career in Cloud, Cloud Market Share.
[6 hours]

Unit-2 Virtual machine and Virtualization:

Levels of virtualization Implementation, VMM Design Requirements and Providers, Virtualization Support at the OS Level, Middleware support for virtualization, Hypervisor and Xen architecture, Virtualization of CPU, Memory and I/O Devices, Virtual Clusters and Resource Management.
[6 hours]

Unit-3 Amazon Web Service (AWS with practical):

AWS brief History, AWS Global Infrastructure, Creation of AWS Account, Quick tour of AWS console, AWS Service Overview, AWS Compute Services, AWS Storage Services, AWS Database Services, AWS Networking Services, AWS Security Services, and Sample AWS Architecture.
[6 hours]

Unit-4 Microsoft Azure with Practical:

Azure Brief History , Azure Global Infrastructure, Create Azure Account, Quick Tour Of Azure Console, Azure Services Overview, Azure Compute Services, Azure Storage Services, Azure Database Services Azure Networking Services, Azure Security Services, sample Azure Serverless Architecture,Azure CLI,Power Shell and SDK,Azure Free Tier and Calculator.
[6 hours]

Unit-5 Google Cloud Platform with practical:

GCP Brief History,GCP Global Infrastructure, Create GCP account, Quick tour of GCP console ,GCP Services overview ,GCP Compute Services, GCP Database Services, GCP Networking Services, GCP Security Services ,Sample GCP Smart Home Architecture ,GCP SDK,GCP free Tier and Calculator
[6 hours]

Course Objectives: Understanding cloud computing concepts and introduction to Amazon Web Services, Microsoft Azure and Google Cloud Platform. Getting started with cloud technologies can be daunting with the number of cloud providers in the market and also hundreds of services, in the form of building blocks, offered by each cloud provider. But it is important to understand these services or building blocks which are used to create and deploy any type of application in the cloud. Also, cloud providers offer on-demand computing resources and services in the cloud, with pay-as-you-go pricing which saves cost. So, every organization is migrating to the cloud in order to save money.

This course is an introductory level course for understanding the cloud technology concepts and gives a detailed introduction to the three largest cloud providers: Amazon Web Service (AWS), Microsoft Azure and Google Cloud Platform (GCP).

Course outcomes:

Get an in-depth understanding of the entire Amazon web Services, Microsoft Azure, GCP Services in Networking, Storage, Databases, Containers, Virtual Machines, App Engine, Security etc.

How to implement virtual machine storage including disks and file shares. How to plan for and make decisions about storage types, storage accounts, and storage tools.

How to manage and implement unstructured data like blob storage.

How to plan for and make decisions about structured data like tables, queues, Document DB, and Azure SQL DB.

Personality Development

Introduction:

Personality Development is a development of the organized pattern of behaviours and attitudes that make a person distinctive. It is concerned with the views of others and how they realize you and what they see in you .It occurs by on -going interaction of temperament, character and environment.Erik Erikson provided an insight full description as to how personality develops based on his extensive experience. He has identified eight phases of the socialisation process of an individual. Five of them occur during infancy, childhood and adolescence. Personality Development is different from self-development which is generally perceived as same. They are related to each other.

But eastern philosophy in general and Indian spirituality in particular understands personality from a different context. Swami Vivekananda says, "Personality Development in the real sense refers to deeper level of a person".Hence, he opines that a study of personality should start from a clear grasp of nature of our mind, and how it functions. Mind has four fold functions likemanas, buddhi, chitta and ahamkara.He has identified four essential qualities for personality development. They are faith in oneself, think positive thoughts, attitude towards failures and mistakes, self-reliance& renunciation and service.

LIFE SKILLS

Introduction:

Life skills represent applications of Knowledge, values, attitudes and skills which are important in the process individual development and in life-long learning. The World Health Organization has defined life skills as, "Abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demands and challenges of everyday life". They are a group of cognitive, personal and interpersonal abilities that help people make informed decisions solve problems think critically and creatively communicate effectively, build healthy relations ships, empathize with others and cope with and manage their lives in a healthy and productive manner. They are distinctly different from physical or perceptual motor skills, such as practical or health skills, as well as from livelihood skills such as crafts, money management and Entrepreneur skills

UNESCO has suggested a frame work for this purpose.It aims at developing competences in areas like Knowledge and critical thinking skills (Learning to know), Practical skills (Learning to do), Personal skills (Learning to be) and Social skills (Learning to live together).

The course on life skills desires to achieve the following objectives: -

1. To make the students to understand the larger issues of life and living
2. To introduce various skills needed for leading a life to the students
