## Report on Establishment of 24\*7 Women Helpline Number and Security System at Brindavan College

Brindavan College, located in Bengaluru, has always been committed to ensuring the safety and security of its students, faculty, and staff members. In alignment with this commitment, the college has taken a significant step towards enhancing safety measures on campus by establishing a 24\*7 women helpline number and implementing a robust security system.

**Purpose:** The primary objective behind the establishment of the women helpline number and security system is to provide immediate assistance and support to female students, faculty, and non-teaching staff in case of any emergencies, threats, or concerns regarding their safety within the college premises.

### Features of the Women Helpline Number:

- The helpline number operates round the clock, ensuring accessibility at any hour of the day or night.
- Trained professionals are available to handle calls with sensitivity, confidentiality, and efficiency.
- The helpline number serves as a platform for reporting incidents of harassment, violence, or any form of distress faced by women on campus.
- Immediate assistance and necessary interventions are provided to ensure the safety and well-being of the individuals in distress.
- Additionally, the helpline number serves as a resource for providing information on safety protocols, preventive measures, and support services available within the college and beyond.

### Security System Implementation:

- Alongside the helpline number, a comprehensive security system has been put in place across the Brindavan College campus.
- This security system includes dedicated surveillance cameras strategically positioned throughout the campus to monitor and deter any suspicious activities.

- Security personnel are deployed across key locations to maintain vigilance and respond promptly to any security concerns or emergencies.
- Access control measures regulate entry and exit points, ensuring only authorized individuals have access to specific areas within the campus.
- The campus features separate women's hostel accommodations, restrooms, and a women's common room to provide a safe and comfortable environment for female students and staff.
- Regular security drills and training sessions are conducted to equip staff members with the necessary skills and knowledge to handle various security scenarios effectively.

**Conclusion:** The establishment of the 24\*7 women helpline number and the implementation of a robust security system mark significant strides towards creating a safer and more secure environment for all members of the Brindavan College community. By prioritizing the safety and well-being of its students, faculty, and staff, the college reaffirms its commitment to fostering a conducive learning and working environment where everyone can thrive without fear or apprehension.
